

Coordinate Graphing Mystery Picture Worksheet by Pink Cat Studio

TPT Store: <http://www.teacherspayteachers.com/Store/Pink-Cat-Studio>

Practice plotting ordered pairs with this fun coordinate graphing mystery picture! This activity is easy to differentiate by choosing either the first quadrant (positive whole numbers) or the four quadrant (positive and negative whole numbers) worksheet. All points are represented by whole numbers, there are no fractions or decimals. This activity is perfect for math centers, early finishers or homework. For a fun bulletin board display, instruct students to color the picture however they like and then hang the completed pictures on your board or wall.

Graphing paper, coordinates worksheets and answer keys are included.

Instructions:

Students plot the ordered pairs and draw connecting straight lines as they plot. When the word "STOP" is reached, the student should NOT connect the last point with the first in the group.
